# Clinical Cases in Obstetrics and Gynecology

Dmytro Konkov Olha Bulavenko UDC 618 LBC 57.1

K 72

#### Edited by

**Dmytro Konkov** MD, PhD, UAOG, Associate Professor of Department Obstetrics and Gynecology №1, Vinnytsya National Pirogov Memorial Medical University, the Chairman of University Medical Simulation Centre (department obstetrics and gynecology)

**Olha Bulavenko** MD, PhD, UAOG, Professor, The Chairman of Department Obstetrics and Gynecology №2, Vinnytsya National Pirogov Memorial Medical University, President of the Ukrainian Association Medical Educational Simulation Technologies

Medicine is an ever-changing science. As new research and clinical experience broaden our knowledge, changes in treatment and drug therapy are required. The authors of this book have checked with sources believed to be reliable in their efforts to provide information that is complete and generally in accord with the standards accepted at the time of publication. The clinical cases are designed to be a study companion to PreTest MRCOG: Obstetrics and Gynecology, Ist edition. In this textbook, the objective is to cover conditions most common in clinical practice, while highlighting disorders that regularly appear on board exams. Case vignettes and questions allow you to test your knowledge with detailed information about associated clinical findings, diagnostic tests, differential diagnosis, treatment, and prognosis on the next page of the textbook. Once you learn the answers to the cases, we challenge you to quiz yourself on other details related to the diagnoses.

We hope these clinical cases will be useful both to the students as an overview of obstetric and gynecologic essentials as well as to the experienced practitioner as a review of frequently encountered diagnoses and commonly tested clinical facts.

The fist reviewer - Makarchuk Oksana, MD, PhD, UAOG, Professor, The Chairman of Department of Midwifery and Gynaecology of postgraduate study faculty, The Ivano-Frankivsk National Medical University

The second reviewer –  $Krasnov\ Volodymyr$ , MD, PhD, Professor, , The Chairman of Department of Pedagogics Psychology Medical and Pharmaceutical Law, the Shupyk National Medical Academy of Postgraduate Education

Printed in Ukraine, Vinnytsya 2018
